

THE PREMIER GLOBAL EVENT FOR MOBILITY PRODUCTS

For the first time in 10 years, the event will be returning to Europe!

Every two years, the ISPO invites professionals involved in the care of patients in need of mobility products, assistive technology, and rehabilitation services to its World Congress.

You can expect four days of high-calibre programme around the congress theme:

**Science in Practice, Practice in Science:
Collaboration and innovation towards sustainable rehabilitation**

NEW SESSION FORMAT: TECHNICAL TRACK

With the aim to promote the fabrication arts through demonstration & hands-on fabrication instruction

During technical track sessions, techniques and generic materials will be discussed and demonstrated, not products.

This new session format with its interactive character will offer a special opportunity to learn practical techniques, exchange ideas with colleagues and find out how things are done elsewhere in the world.

Especially, as a technician or fabricating clinician this new session format is an advantage!

The technical track includes demonstrations and hands-on sessions:

- **Technical demonstrations** are sessions where a specific technique is presented to the participants. The participants do not practice technique but watch the demonstration and can exchange with the presenter.
- **Hands-on sessions** are sessions where a specific technique is presented to the participants and in which the participants have the possibility to practice the technique.

Technical track topics are:

- Materials science
- Digital technologies
- P&O fabrication techniques
- Wheelchair and postural support fabrication techniques
- Equipment and tools: selection, use, maintenance, and repair

CALL FOR PAPERS

Submit your proposal for a
Technical track presentation
until **7 October 2024**

DON'T WORRY, IT'S EASY: PRESENT YOUR OWN METHODS AND / OR LEARN FROM OTHERS!

Welcome to Stockholm in 2025!

ISPO International and the National Member Societies from Sweden, Norway, United Kingdom and the Netherlands look forward to welcoming you!
